

FACIAL WAXING

We believe removing hair from your face should be a pleasant experience. We have two different types of gentle wax. We prefer using our hard wax that lifts from the skin and shrink-wraps around the hair. With this wax, no skin is pulled and irritation is minimized. We also have a soy based strip wax for clients who prefer this method.

After waxing, your skin is soothed with a blend of lavender, rosemary, thyme, cypress and geranium. This blend of essential oils helps prevent breakouts, calms redness and itching and has an intoxicating aroma that will make you forget all about your unwanted facial hair. You will leave with your skin feeling fresh and clean.

We have a variety of after waxing products to use if preferred.

BODY WAXING

Our body-waxing professionals will use different waxes depending on the area of the body to be waxed.

For the sensitive bikini area we use a hard wax that has been specifically developed to gently and thoroughly remove unwanted hair from the bikini area. This makes your bikini wax a much more comfortable and non-irritating experience. For larger areas like the legs, we use a gentle soy based strip wax.

After waxing, any residue is removed and your skin is soothed with different calming lotions and oils depending on your needs. We have products that address ingrown hair issues as well. These may be used in house and available to take home.

MENU OF SERVICES

EYEBROW STYLING

The Arch brow has a signature balanced look that is tailored to your unique facial features, personal style and lifestyle. Whether your look is natural and low maintenance or high glamour; there is a meticulously balanced Arch brow especially for you. We believe the key to YOUR BEST BROW is working with your individual bone structure and lines that you were born with. Our goal is to achieve the best brows for YOUR face.

On your first visit, your Browista will analyze your brows and discuss a plan to create the best shape for you. First we use a gentle hard wax to remove any excess hair. This wax minimizes any irritation and discomfort. Your brows are then perfected with our famous trimming and tweezing technique. If you have any aversion to waxing you may request tweezing and trimming only.
